MSS 2008.5
FRANKFORD PHOTO COLLECTION

Overview of the Collection

Number: MSS 2008.5
Title: Frankford Photo Collection
Creator: Archivist
Dates: 1816-1984
Media: Photographs and negatives
Quantity: 2.5 cf
Location: E1, Drawer 2

Scope of the Collection

This collection includes photographs and photographic negatives of Frankford Arsenal. Items pictured include building interiors and exteriors, commanders, special events, commanders, construction, production, facilities, and machinery.

Organization of the Collection

The collection is arranged topically, with building photographs arranged (as much as possible) in numerical order.

Administrative Information

Access: Unclassified items within this collection are open under the rules and regulations of the Command.

Preferred Citation: Researchers are requested to cite the collection name, collection number, and the Command Archives in all footnote and bibliographic references.

Provenance: Pre-existing, un-catalogued collection.

Property Rights: The Command owns the property rights to this collection.

Copyrights: Consideration of all copyrights is the responsibility of the author and publisher.

Detailed Description of the Collection

- 2008.5.1 – Frankford Arsenal Laboratory (1910)
- 2008.5.2 – Frankford Arsenal – Chemical Laboratory Office (1905)
- 2008.5.3 – Frankford Arsenal – Testing Department, Chemical Laboratory (1905)
- 2008.5.4 – Frankford Arsenal – Experimental Laboratory (1864)
- 2008.5.5 – Frankford Arsenal – Primer Inserting Machines (1905)
- 2008.5.6 – Frankford Arsenal – The Drawing Office (1905)
- 2008.5.7 – Frankford Arsenal – Interior of Carpenter Shop (1905)
- 2008.5.8 – Frankford Arsenal – Ramsey Road (1870)
- 2008.5.9 – Frankford Arsenal – Set of Ring Gages and Box (1859-1864)
- 2008.5.10 – Frankford Arsenal – Scrap Metal Drive (1942)
- 2008.5.11 – Frankford Arsenal – Warehousing (1951)
- 2008.5.12 – Frankford Arsenal – Cafeteria (1951)
- 2008.5.13 – Frankford Arsenal – Artillery Division Shell Shops (1951)
- 2008.5.14 – Frankford Arsenal – Early WWII Safety Clothing (1942)
- 2008.5.15 – Frankford Arsenal – U.S. Commissioner’s Court (1943)
- 2008.5.16 – Material Handling Between Buildings (1946)
- 2008.5.17 – Museum and Library Building – Frankford Arsenal (1926)
- 2008.5.18 – Gages used in the manufacture of 75mm cartridge cases – Frankford Arsenal
- 2008.5.19 – Machine Gun clinometers, model of 1917
- 2008.5.20 – Evolution of nickel jacket and bullet (1905)
- 2008.5.21 – Ammunition for the new 30 cal. Rifle (1905)
- 2008.5.22 – Springfield, Krag, and model 1903 cartridges (1903)
- 2008.5.23 – 3,000 ton Hydraulic Heading Press (1905)
- 2008.5.24 – View of Fuze Department – Frankford Arsenal (1905)
- 2008.5.25 – Draw presses for artillery cartridge cases – Frankford Arsenal (1905)
- 2008.5.26 – Artillery cartridge case headers – Frankford Arsenal (1905)
- 2008.5.27 – Interior of proof house showing instruments – Frankford Arsenal (1905)
- 2008.5.28 – Interior of Proof House showing gun in firing rest – Frankford Arsenal (1905)
- 2008.5.29 – View in paper box shop – Frankford Arsenal (1905)
- 2008.5.30 – Rolling paper tubes and blank cartridges – Frankford Arsenal (1905)
- 2008.5.31 – Cartridge-head gaging machine – Frankford Arsenal (1905)
- 2008.5.32 – Paper tube and bullets for blank cartridges – Frankford Arsenal (1905)
- 2008.5.33 – Gunner’s quadrant, brass – Frankford Arsenal
- 2008.5.34 – Weldon Range Finder – Frankford Arsenal
- 2008.5.35 – Rear sight for 1897 model 3.2” gun – Frankford Arsenal (1897)
- 2008.5.36 – Successive Stages in the Manufacture of the 3.2 inch Built-up – Frankford Arsenal
- 2008.5.37 – Artillery Ammunition Department – Frankford Arsenal (1951)
- 2008.5.38 – Pusher Furnace for Brazing Research – Frankford Arsenal (1951)
- 2008.5.39 – Cal.50 Brass Cartridge Case – Spiral Wrapped – Frankford Arsenal (1870)
- 2008.5.40 – Sequence of shapes used in forming by cold extrusion of the 57mm shell – Frankford Arsenal (1951)
- 2008.5.41 – Successive Stages in the Manufacture of 1.65 inch cases – Frankford Arsenal

- 2008.5.42 – View of Frankford Creek showing arsenal buildings and deck
- 2008.5.43 – Stadia made at Frankford Arsenal
- 2008.5.44 – Front sight for 10” or 15” gun probably made at Frankford Arsenal
- 2008.5.45 – Gages used in inspection and measuring thickness and depth of shells, hollow shot, and fuze holes of mortar shells (1865)
- 2008.5.46 – Rear sight for 6 pounder cannon – Frankford Arsenal
- 2008.5.47 – Set of gages for artillery shell production – Frankford Arsenal
- 2008.5.48 – Battery commander’s periscope - WWI
- 2008.5.49 – 3.2inch ammunition – Frankford Arsenal (1895)
- 2008.5.50 – Fixed Ammunition for 1.65 inch Hotchkiss Mountain Gun – Frankford Arsenal (1895)
- 2008.5.51 – Quarters 9 and 10 – Frankford Arsenal
- 2008.5.52 – Small Arms Ammunition Packaging – Frankford Arsenal (1890s)
- 2008.5.53 – Small Arms Ammunition Packaging – Frankford Arsenal (1890s)
- 2008.5.54 – Small Arms Ammunition Packaging – Frankford Arsenal (1890s)
- 2008.5.55 – Small Arms Ammunition Packaging – Frankford Arsenal (1890s)
- 2008.5.56 – Small Arms Ammunition Packaging – Frankford Arsenal (1890s)
- 2008.5.57 – Frankford Arsenal – Unknown Mechanism
- 2008.5.58 – Shell Drawing Sequence – Frankford Arsenal
- 2008.5.59 – Display of shells with building in background – Frankford Arsenal
- 2008.5.60 – Small Arms Ammunition Packaging – Frankford Arsenal (1890s)
- 2008.5.61 – COL Pitman – Frankford Arsenal
- 2008.5.62 – CPT Beverly Dunn – Frankford Arsenal
- 2008.5.63 – Electronic Parts – Frankford Arsenal
- 2008.5.64 – 7.62mm Ammunition Weight Comparison Caseless Ammunition – Frankford Arsenal
- 2008.5.65 – Ammunition Display Board – Frankford Arsenal
- 2008.5.66 – Ammunition Display Board – Frankford Arsenal
- 2008.5.67 – Ammunition Display Board – Frankford Arsenal
- 2008.5.68 – Experimental 30mm Caseless Ammunition Developed at Frankford Arsenal
- 2008.5.69 – Fuze, MT, T366 – Developed at Frankford Arsenal
- 2008.5.70 – Fuzes developed at Frankford Arsenal
- 2008.5.71 – Ammunition Display Board – Frankford Arsenal
- 2008.5.72 – Mock-up of escape capsule of F-104 jet fighter – Developed at Pitman-Dunn Laboratories – Frankford Arsenal (1960)
- 2008.5.73 – The Mobile Training Center which offered 23 electronics and technical courses – Frankford Arsenal
- 2008.5.74 – 40mm Prototype Powder Gun – Frankford Arsenal
- 2008.5.75 – 40mm Prototype Powder Gun – Frankford Arsenal
- 2008.5.76 – Civil War Building used as barracks until 1910 then used as a storehouse #237 – Frankford Arsenal
- 2008.5.77 – Hoist at Palmyra Airport is prepared to catapult a 300lb weight that simulates a pilot being ejected from a jet-propelled plane (1946)
- 2008.5.78 – Anti-Aircraft Data Computer M17 – Frankford Arsenal
- 2008.5.79 – Carpenter’s Shop – Building 45 – Old Trade School – Frankford Arsenal (1919)

- 2008.5.80 – Fire Control Design Port – Frankford Arsenal (1952)
- 2008.5.81 – Box and packing shop – Building for small arms tracer, incendiary, explosive (1919)
- 2008.5.82 – R.R. loading sheet – Frankford Arsenal (1919)
- 2008.5.83 – 250-ton capacity Bliss Hydro-Dynamic Press for artillery shell production – Frankford Arsenal (1946)
- 2008.5.84 – Hawaiian Dancers in the Christmas, 1944, War Bond Caravan – Frankford Arsenal (1944)
- 2008.5.85 – Harry A. Evangelides, inventor of the HAE Process for the protection of Magnesium – Frankford Arsenal (1951)
- 2008.5.86 – Buildings 215, 213, and 211 provide background for grazing cow, photo taken in early 1900s – Frankford Arsenal (1919)
- 2008.5.87 – Craig Road – Frankford Arsenal (1900)
- 2008.5.88 – Worth Road – Frankford Arsenal (1910)
- 2008.5.89 – Old Guard House – Smith Shop – Buildings 35, 38, 40 (1900)
- 2008.5.90 – Former building for handling explosive charges – since demolished (1900s)
- 2008.5.91 – Small Arms Ammunition, Building 111, Civil War cannon and shot in foreground (1900)
- 2008.5.92 – Former building for loading shell explosive charges, since demolished – Frankford Arsenal (1900s)
- 2008.5.93 – Former Administration building and storehouse (1900s)
- 2008.5.94 – Old stable at Frankford Arsenal (rebuilt)
- 2008.5.95 – Building 101 – Former Guardhouse – Frankford Arsenal
- 2008.5.96 – Large case, optical and stock department – Frankford Arsenal
- 2008.5.97 – Former storehouse and quarters – now officer's apartments and enlisted men's quarters – Frankford Arsenal
- 2008.5.98 – Filling shrapnel cases – Frankford Arsenal (1905)
- 2008.5.99 – Paper tube cutter – Frankford Arsenal (1905)
- 2008.5.100 – Cartridge-head gaging machine – Frankford Arsenal (1905)
- 2008.5.101 – The Cartridge Chip – Frankford Arsenal (1905)
- 2008.5.102 – Machine for Assembly Cartridges in clips – Frankford Arsenal (1905)
- 2008.5.103 – Gaging and weighing machines – Frankford Arsenal (1905)
- 2008.5.104 – Weighing Attachment for gaging machine – Frankford Arsenal (1905)
- 2008.5.105 – Loading machines – Frankford Arsenal (1905)
- 2008.5.106 – Assembling and resizing jacketed bullets – Frankford Arsenal (1905)
- 2008.5.107 – View in lead shop – Frankford Arsenal (1905)
- 2008.5.108 – Forming and inspecting paper bullets – Frankford Arsenal (1905)
- 2008.5.109 – Ground floor of shrapnel department – Frankford Arsenal (1905)
- 2008.5.110 – Second Floor of Shrapnel Department – Frankford Arsenal (1905)
- 2008.5.111 – View in Fuze Department – Frankford Arsenal (1905)
- 2008.5.112 – Frankford Rest – Frankford Arsenal (1894)
- 2008.5.113 – Building #149 – Frankford Arsenal
- 2008.5.114 – Building #422 – Frankford Arsenal (1977)
- 2008.5.115 – Quarters 1 – Frankford Arsenal (1871)
- 2008.5.116 – Main Gate – Bridge Street – Guard House – Building #101 – Frankford Arsenal (1866-1918)

- 2008.5.117 – Building #15 – Officer’s Club – Frankford Arsenal (1961)
- 2008.5.118 – New Power Plant Interior – Frankford Arsenal (1922)
- 2008.5.119 – Storehouse – Frankford Arsenal (1919)
- 2008.5.120 – General Storehouse – Frankford Arsenal (1919)
- 2008.5.121 – Conversion of storage building to cafeteria and recreation hall for women
wartime employees – Frankford Arsenal (1919)
- 2008.5.122 – Conversion of storage building to cafeteria and recreation hall for women
wartime employees – Frankford Arsenal (1919)
- 2008.5.123 – Carpenter Shop – Frankford Arsenal (1905)
- 2008.5.124 – Main Entrance and Guard House – Frankford Arsenal (1905)
- 2008.5.125 – Pocket sizing and venting – Frankford Arsenal (1905)
- 2008.5.126 – End trim and automatic feed – Frankford Arsenal (1905)
- 2008.5.127 – Bullet jacket draw presses – Frankford Arsenal (1905)
- 2008.5.128 – Primer Deputy – Frankford Arsenal (1905)
- 2008.5.129 – General view of Arsenal Shops – Frankford Arsenal (1905)
- 2008.5.130 – View in power plant – Frankford Arsenal (1905)
- 2008.5.131 – Piles of lumber near magazines – Frankford Arsenal (June 1916)
- 2008.5.132 – Sulphur piled up on the grounds of the Lennig Acid Plant – Frankford
Arsenal (June 1918)
- 2008.5.133 – Sulphur piled up on the grounds of the Lennig Acid Plant – Frankford
Arsenal (June 1918)
- 2008.5.134 – Barricades of wooden boxes around magazines – Frankford Arsenal (June
1918)
- 2008.5.135 – WWI Construction – Warehouses – Frankford Arsenal (1915-1918)
- 2008.5.136 – Small Arms Ammunition Shop – Frankford Arsenal
- 2008.5.137 – Small Arms Ammunition Shops – Frankford Arsenal (1920s)
- 2008.5.138 – View looking north on Thomas Street – Frankford Arsenal
- 2008.5.139 – Small Arms Ammunition Department Shop Building – Frankford Arsenal
- 2008.5.140 – Aerial View of Frankford Arsenal (1930)
- 2008.5.141 – William John Williams – First Army Chemist – Frankford Arsenal
- 2008.5.142 – Sintering Furnace at Frankford Arsenal
- 2008.5.143 – Job Applicants at Frankford Arsenal during the Korean War (1950s)
- 2008.5.144 – Lathes, Polishing Machines and Lens Grinding Machines, Instrument
Department – Frankford Arsenal (1926)
- 2008.5.145 – Gage Storage Racks and Bins at Frankford Arsenal (1924)
- 2008.5.146 – Building 14 – Frankford Arsenal
- 2008.5.147 – Building 11 – Frankford Arsenal
- 2008.5.148 – Quarters 4 – Frankford Arsenal
- 2008.5.149 – Small Arms Ammunition Shop – Frankford Arsenal (1910)
- 2008.5.150 – Building #15 – Officer’s Club – Frankford Arsenal
- 2008.5.151 – 7.62mm Last Rounds made at Frankford Arsenal (1977)
- 2008.5.152 – Binoculars developed at Frankford Arsenal
- 2008.5.153 – Commanding Officers – Frankford Arsenal (1816-1966)
- 2008.5.154 – Boat in Frankford Creek – Frankford Arsenal
- 2008.5.155 – Quarters 1 – Frankford Arsenal
- 2008.5.156 – Destruction of the Fidler Ropewalk – Frankford Arsenal (1974)

- 2008.5.157 – Destruction of the Fidler Ropewalk – Frankford Arsenal (1974)
- 2008.5.158 – Destruction of the Fidler Ropewalk – Frankford Arsenal (1974)
- 2008.5.159 – Destruction of the Fidler Ropewalk – Frankford Arsenal (1974)
- 2008.5.160 – Destruction of the Fidler Ropewalk – Frankford Arsenal (1974)
- 2008.5.161 – Headquarters Building #107 – Frankford Arsenal
- 2008.5.162 – Commanding Officer's Quarters – Frankford Arsenal
- 2008.5.163 – Destruction of the Fidler Ropewalk – Frankford Arsenal (1974)
- 2008.5.164 – Small Arms Ammunition Building #111 – Frankford Arsenal
- 2008.5.165 – Ammunition Ballistic Ranges – Building 521 – Frankford Arsenal
- 2008.5.166 – Fire Control director – T-1 developed by Frankford Arsenal
- 2008.5.167 – Computer, Gun Direction, 1918 – Frankford Arsenal (FADAC)
- 2008.5.168 – New Bridge Street Gate – Frankford Arsenal (1952)
- 2008.5.169 – Old Bridge Street Gate – Frankford Arsenal (1952)
- 2008.5.170 – Retirement Ceremony for COL Paul A. Nilsson – Frankford Arsenal (1968)
- 2008.5.171 – Building 241 – after explosion and fire – Frankford Arsenal (1938)
- 2008.5.172 – Spindle tapering machine – Frankford Arsenal (1905)
- 2008.5.173 – Double Action draw presses, first operation on cartridge case – Frankford Arsenal (1905)
- 2008.5.174 – Tapering machines and head turners – Frankford Arsenal (1905)
- 2008.5.175 – Annealing machines- Frankford Arsenal (1905)
- 2008.5.176 – Sight department in the machine shop – Frankford Arsenal (1905)
- 2008.5.177 – Machine Shop – First Floor – Frankford Arsenal (1905)
- 2008.5.178 – Cartridge Case Inspectors – Frankford Arsenal (1905)
- 2008.5.179 – Ammonia dissociators and drying towers – Frankford Arsenal (1951)
- 2008.5.180 – Fire control instrument group – Model Shop – Frankford Arsenal
- 2008.5.181 – Artillery Ammunition Department – Frankford Arsenal (1951)
- 2008.5.182 – 200 ton metal powder press – Frankford Arsenal (1951)
- 2008.5.183 – West Setter (Shell Banding Machine) – Frankford Arsenal (1951)
- 2008.5.184 – Artillery Plating Shop – Frankford Arsenal (1951)
- 2008.5.185 – Small Arms Ammunition Department – Frankford Arsenal
- 2008.5.186 – Nitrogen Generator, Artillery Ammunition Department – Frankford Arsenal (1951)
- 2008.5.187 – M-2 Fire Control Director – Frankford Arsenal (1930)
- 2008.5.188 – Fire control instrument for 105 self-propelled Howitzer – Frankford Arsenal (1955)
- 2008.5.189 – Mass at Frankford Arsenal (1953)
- 2008.5.190 – Sequence of Operations of Standard gilding metal band, 105mm M1 shell – Frankford Arsenal (1951)
- 2008.5.191 – Sequence of Operations for the welded overlay rotating band – 105mm M1 shell – Frankford Arsenal (1951)
- 2008.5.192 – Welded overlay rotating bands on 57mm M306 shell – Frankford Arsenal (1951)
- 2008.5.193 – Depot MAIDs Developed by Frankford Arsenal
- 2008.5.194 – Special Ammunition Warehouse – Frankford Arsenal (1919)
- 2008.5.195 – Second Floor, Carpenter's Shop – Frankford Arsenal (1919)
- 2008.5.196 – First Floor – Carpenter's Shop – Frankford Arsenal (1919)

- 2008.5.197 – Fire control instrument center – engraving shop – Frankford Arsenal (1952)
- 2008.5.198 – Metal storehouse #2 – Frankford Arsenal (1919)
- 2008.5.199 – Instrument department in the machine shop – Frankford Arsenal (1905)
- 2008.5.200 – A special indexing and milling machine – Frankford Arsenal (1905)
- 2008.5.201 – First operation header with automatic feed – Frankford Arsenal (1905)
- 2008.5.202 – Draw presses and automatic feed happens – Frankford Arsenal (1905)
- 2008.5.203 – Annealing room – Frankford Arsenal (1905)
- 2008.5.204 – Cartridge clip presses – Frankford Arsenal (1905)
- 2008.5.205 – Changes in shell section through drawing and heading operation (1905)
- 2008.5.206 – Successive stages in mfr of .30 cal cartridge case – Frankford Arsenal (1905)
- 2008.5.207 – Sheet metal shop – Frankford Arsenal (1929)
- 2008.5.208 – Forge shop – Frankford Arsenal (1929)
- 2008.5.209 – Cartridge case shop – Frankford Arsenal (1929)
- 2008.5.210 – Shell shop – Machining 5in Navy shells (1929)
- 2008.5.211 – Checking gages at Frankford Arsenal (1924)
- 2008.5.212 – Wrapping gages in moisture-proof paper for storage – Frankford Arsenal (1924)
- 2008.5.213 – Small arms ballistics range – Frankford Arsenal (1940)
- 2008.5.214 – Drilling machine line for mechanical time-fuze plates – Frankford Arsenal (1940)
- 2008.5.215 – Manuel Weinstock, Frankford Employee and inventor of the helicopter pilot ejection system
- 2008.5.216 – Prism polisher in the optical section of Frankford Arsenal (WWII)
- 2008.5.217 – Aerial view – Frankford Arsenal and vicinity (WWII)
- 2008.5.218 – 67 varieties of small arms ammunition manufactured during World War II (1941-1945)
- 2008.5.219 – Map of Frankford Arsenal (1942)
- 2008.5.220 – Barricades of wooden boxes around magazines – Frankford Arsenal (1918)
- 2008.5.221 – Small magazines built into the end of the concrete abutment of the old artillery range – Frankford Arsenal (June 1918)
- 2008.5.222 – Piles of wooden boxes near the magazines – Frankford Arsenal (June 1918)
- 2008.5.223 – Piles of lumber near magazines – Frankford Arsenal (1918)
- 2008.5.224 – Piles of lumber near magazines – Frankford Arsenal (1918)
- 2008.5.225 – Small arms ammunition shops – Frankford Arsenal (1920s)
- 2008.5.226 – Apprentice School – Frankford Arsenal – The Machine Shop (1939)
- 2008.5.227 – Frankford Arsenal from the Air (1926)
- 2008.5.228 – Section of the Experimental Laboratory – Small Arms Ammunition Department – Frankford Arsenal (1926)
- 2008.5.229 – Ladies and other equipment used in the manufacture of plotting boards – Frankford Arsenal (1926)
- 2008.5.230 – Special testing fixtures used in the assembly and adjustment division – Instrument department – Frankford Arsenal (1926)
- 2008.5.231 – Partly Assembled Rotors – Panels and wiring for radio apparatus – Instrument Department – Frankford Arsenal (1926)

- 2008.5.232 – Drill presses and lathes for machining miscellaneous instrument parts – Instrument Department – Frankford Arsenal (1926)
- 2008.5.233 – Wood-working machines and parts for pistol and rifle chests – Instrument Department – Frankford Arsenal (1926)
- 2008.5.234 – Plating shop – Frankford Arsenal (1929)
- 2008.5.235 – Heat Treating Shop – Frankford Arsenal (1929)
- 2008.5.236 – Fuze shop – Frankford Arsenal (1929)
- 2008.5.237 – Revolver cartridges – Cal.44 - .45 - .38 – Multiball cartridges, Cal.45 – Frankford Arsenal
- 2008.5.238 – Service – Paper – Percussion Lock – Calibers .69 and .58 – Frankford Arsenal (1842-1855)
- 2008.5.239 – Service Cartridge – Rifle – Metallic Primed – Frankford Arsenal (1874-1895)
- 2008.5.240 – Service Cartridge – Rifle – Metallic Primed – Frankford Arsenal (1874-1895)
- 2008.5.241 – Service Cartridge – Metallic Primed – Caliber .58 and .50 – Frankford Arsenal (1865-1873)
- 2008.5.242 – Service – Paper – Flint Lock – Calibers - .69 and .526 – Frankford Arsenal (1822-1842)
- 2008.5.243 – Service Cartridges Metallic Primed – Caliber .58 and .50 – Frankford Arsenal (1865-1873)
- 2008.5.244 – Types of Artillery Shells Manufactured at Frankford Arsenal
- 2008.5.245 – Prototype straight-line shell production shop – Frankford Arsenal (1939)
- 2008.5.246 – New anti-aircraft artillery fire control apparatus developed at Frankford Arsenal (1921)
- 2008.5.247 – Range correction board developed at Frankford Arsenal (1920)
- 2008.5.248 – Balloon Observation Instrument developed at Frankford Arsenal (1920)
- 2008.5.249 – Apprentice School – Class and Recreation Room – Frankford Arsenal (1939)
- 2008.5.250 – First successful panoramic sights both designed and built at Frankford Arsenal (1917, 1920)
- 2008.5.251 – Experimental sound locator – Model 1926 developed at Frankford Arsenal (1926)
- 2008.5.252 – Recessing, drilling and tapping caps for fuzes – Frankford Arsenal (1940)
- 2008.5.253 – The Annealing Room – Frankford Arsenal (1905)
- 2008.5.254 – Original 75mm T16 Recoilless Rifle Prototypes
- 2008.5.255 – Army Exhibit 1876 – Philadelphia Exposition – Frankford Arsenal (1876)
- 2008.5.256 – BG E.E. MacMoreland's Farewell Party – Frankford Arsenal (May 1948)
- 2008.5.257 – Fire Control Instrument Center – Frankford Arsenal (1952)
