

# JOINT MUNITIONS & LETHALITY LIFE CYCLE MANAGEMENT COMMAND AMMUNITION TRIAD

## JOINT MUNITIONS COMMAND

JMC's mission is to provide Joint Forces with ready, reliable, lethal munitions at the right place and time to sustain global operations. JMC serves as the Field Operating Activity for the Single Manager for Conventional Ammunition. As such, JMC is responsible for ammunition storage and surveillance; distribution; demilitarization; and production for the Department of Defense. JMC manages a nationwide network of facilities (ammunition plants & storage depots), as well as TACON of the Chemical Materials Activity (CMA). JMC Headquarters is located on the Rock Island Arsenal, in Rock Island, Illinois.

## PROGRAM EXECUTIVE OFFICE AMMUNITION

The Program Executive Office for Ammunition (PEO Ammo) is focused on being a world class organization that delivers the most capable and affordable ammunition, weapons and counter IED products to the Joint Warfighter as efficiently as possible. PEO Ammo is designated as the SMCA Executor, responsible for the acquisition of conventional ammunition for all military Services. PEO Ammo is located at Picatinny Arsenal, New Jersey, and is comprised of four Project Management (PM) and two Project Director (PD) offices.

## ARMAMENT RESEARCH, DEVELOPMENT & ENGINEERING CENTER

ARDEC leads research, development, and engineering of systems solutions to arm those who defend the Nation against all current and future threats, both at home and abroad. An organizational element of AMC's Research, Development and Engineering Command (RDECOM), ARDEC technology enhancements improve already-fielded items, transition technology to the PEO to develop new items, maintains a strong armament technology base in government, industry, and academia and provide technical support to the Warfighter in the field. The center serves as the entry point for LCMC interaction with RDECOM and its other research, development, and engineering centers. ARDEC is located at Picatinny Arsenal, New Jersey.
