NOW HIRING

Are you looking for a career that is fulfilling? Do you want to work for one of the top employers in the Quad Cities?

The United States Army, Headquarters (HQ), Joint Munitions Command (JMC), is looking to hire a Health Physicist at Rock Island, IL.

**Salary starts at $ 43,657.00 (GS-1306-07)**
**Full salary range after 3-years ($77,442.00 to $100,679.00 full performance GS-1306-12)**

About the position: This position is being filled under the Direct Hire Authority for Certain Personnel of the DoD Workforce.

Duties: Implements and carries out the policies and guidelines for the storage, movement, and disposal of unwanted radioactive material. Serves as a technical specialist and advisor for the DOD Worldwide radioactive waste disposal program. Performs and oversees on-site physical examination of packages prepared for shipment to burial sites. Prepares instructions for legal packaging and shipping of radioactive waste. Acts as project officer for non-major projects involving decontamination of equipment and/or small areas contaminated with radioactive materials. Assist in investigating radiation accidents and incidents.

QUALIFICATIONS:

Who May Apply: US Citizens

In order to qualify, you must meet the education and/or experience requirements described below. Experience refers to paid and unpaid experience, including volunteer work done through National Service programs (e.g., Peace Corps, AmeriCorps) and other organizations (e.g., professional; philanthropic; religious; spiritual; community; student; social). You will receive credit for all qualifying experience, including volunteer experience. Your resume must clearly describe your relevant experience; if qualifying based on education, your transcripts will be required as part of your application. Additional information about transcripts is in this document.

Basic education requirement for all grades:

- Degree: Successful completion of a full 4-year course of study in an accredited college or university leading to a bachelor’s or higher degree that included a major field in natural science or engineering that included at least 30 semester hours in health physics, engineering, radiological science, chemistry, physics, biology, mathematics, and/or calculus.

- Combination of education and experience: Appropriate combination of education and experience to include courses as shown above, plus appropriate experience or other education; or certification as a health physicist by the American Board of Health Physics, plus appropriate experience and other education that provided an understanding of sciences applicable to health physics comparable to that described above.

Specialized experience for GS-07: To qualify based on your work experience, your resume must describe at least one year of experience which prepared you to do the work in this job. Specialized experience is defined as experience that is typically in or related to the work of the position to be filled such as: performing analysis of data to identify trends and problems in physical science fields such as radioactive waste; researching multiple policies and program guidelines for compliance; and/or creating reports based on observation and audit of physical science program functions. This definition of specialized experience is typical of work performed at the next lower grade/level position in the federal service (GS-05).

or

Education substitution for Specialized Experience for GS-07: Successful completion of one full year of graduate level education or superior academic achievement (defined as a bachelors degree with at least one of the following: upper third of graduating class OR G.P.A. of 2.95 or higher OR membership in a national scholastic honor society.) Additional information can be found in the OPM Qualifications Standards. If claiming superior academic achievement, you must include documentation to verify eligibility. (You must attach a copy of your transcripts).

or

Combination of Experience and Education Substitution for Specialized Experience for GS-07: If you have some, but not all, of the
experience or education described above, you may still qualify by combining the amount of creditable experience and education that
you possess. To compute the percentage, divide your total months of qualifying experience by 12. Then divide your semester hours of
graduate education by 18. Add the two percentages. The total percentage must equal at least 100% to qualify.

FOREIGN EDUCATION: If you are using education completed in foreign colleges or universities to meet the qualification requirements,
you must show the education credentials have been evaluated by a private organization that specializes in interpretation of foreign
education programs and such education has been deemed equivalent to that gained in an accredited U.S. education program; or full
credit has been given for the courses at a U.S. accredited college or university. For further information, visit:
