

ANNISTON MUNITIONS CENTER

ANNISTON, AL

Anniston Munitions Center (ANMC), is a Government-Owned, Government-Operated, Department of Defense (DoD) facility located on Anniston Army Depot (ANAD) in Anniston, Alabama.

ANMC is a premier munitions provider, providing timely and accurate receipt, storage, surveillance, inventory, maintenance, issue, and demilitarization of missiles and conventional ammunition for the DoD. The ANMC team of over 150 professionals supports contingency operations worldwide, manages go-to-war stocks and supports foreign military sales while providing shipments world-wide as needed.

ANMC occupies 13,000 acres and the facilities include nearly 40 buildings, over 1,200 igloos and a storage capacity of 2.3 million square feet. ANMC is the sole Army site for the storage and issuance of the THAAD interceptor and performs recycling of MLRS rockets and maintenance of other assets, such as TOW missiles for the DoD.

Centrally located near transportation arteries, ANMC's skilled team is capable of transporting munitions via air, rail, ground or sea. ANMC is a proven partner of industry that takes our commitment to the Warfighter and our customers seriously. We invite you to partner with the ANMC team of experts!
