Phone: 520-693-1317

ADDRESS:

Anniston Munitions Center
ATTN: AMSTA-AN-PA, 7 Frankford Avenue
Anniston, AL 36201-4199

MISSION:

Anniston Munitions Center (ANMC) provides timely and accurate receipt, storage, surveillance, inventory, maintenance, issue, and demilitarization of missiles and conventional ammunition for the Department of Defense.

FORCE MULTIPLIER:

The Anniston Munitions Center (ANMC) stands as a vital pillar of our nation's defense, ensuring the Department of Defense operates with precision and readiness. Through its mission to provide timely and accurate receipt, storage, surveillance, inventory management, maintenance, issue, and demilitarization of missiles and conventional ammunition, ANMC embodies the steadfast commitment to keeping our armed forces fully equipped and prepared. Every operation conducted at ANMC is a testament to the dedication and expertise of its workforce, ensuring that our warfighters have the tools they need to succeed in every mission.

ANMC exemplifies the values of efficiency, innovation, and reliability that form the foundation of our military's strength. By safeguarding and managing critical munitions, the center plays an indispensable role in sustaining the operational readiness of our nation's military. It is more than a logistics hub—it is a symbol of American resolve and a reflection of the enduring partnership between those who serve on the frontlines and those who work tirelessly behind the scenes to support them. Together, we fortify the defense of our nation and protect the freedoms we hold dear.

CAPABILITIES:

- Shipping, Receiving, Surveillance, Inspections, Inventory, Storage, Transportation, Maintenance & Demilitarization of Missiles and Conventional Munitions
- Open Detonation & Open Burn Demilitarization
- Multiple Launch Rocket System (MLRS) Recycle Facility
- Strategic Outload
- Long Term Storage
- Supply Chain Support
- ISO Certifications (Quality, Safety, Environmental)

HISTORY:

Anniston Ordnance Depot was established in 1941. In 1952, the depot was assigned a maintenance mission for the overhaul and repair of combat vehicles. In 1962, the installation was renamed Anniston Army Depot (ANAD) and became part of the Army Materiel Command. In 1998, operational control of ANAD was transferred to Tank-automotive and Armaments Command. At the same time, the ammunition mission and resources were renamed the Anniston Munitions Center (ANMC). ANMC became a tenant of ANAD and officially came under the full command and control of Blue Grass Army Depot in Richmond, Kentucky. ANMC received its first on-site commander in 2004 and remains an integral part of the Joint Munitions Command's munitions enterprise. ANMC is a Government-Owned, Government-Operated facility.

FACILITIES:

ANMC is housed on more than 13,000 acres with 39 buildings, more than 1,200 igloos, and a storage capacity of approximately 2.3M Square Feet. It is a tenant activity of the Anniston Army Depot (ANAD).
