CONTRACTOR:

Amentum

PUBLIC AFFAIRS CONTACT:

Justine Barati justine.a.barati.civ@army.mil

Phone: 520-693-1317

ADDRESS:

Hawthorne Army Depot
ATTN: JMHWSAS, 1 South Maine Ave.
Hawthorne, NV 89415

MISSION:

Hawthorne Army Depot (HWAD) receives, stores and issues conventional munitions; demilitarizes and disposes of unserviceable, obsolete and surplus munitions; and maintains serviceability through inspection and renovation to ensure munitions readiness in support of joint forces.

FORCE MULTIPLIER:

Hawthorne Army Depot (HWAD) stands as a cornerstone of America's defense readiness, ensuring that our joint forces are equipped and prepared to confront any challenge, anywhere in the world. At HWAD, the mission is straightforward but vital: to receive, store, and issue conventional munitions, to safely demilitarize and dispose of unserviceable, obsolete, and surplus munitions, and to maintain serviceability through rigorous inspection and renovation. This work isn't just about logistics; it's about safeguarding the backbone of our military operations and ensuring that our warfighters have the tools they need to defend freedom and protect American interests.

HWAD's operations represent a commitment to excellence, safety, and responsibility that extends beyond its gates. By securely handling and disposing of aging munitions, HWAD underscores its dedication to protecting both our forces and our environment. At the same time, its meticulous renovation and inspection processes ensure that every piece of ordnance meets the highest standards of reliability and readiness. For the American public, HWAD's mission is a clear demonstration of the relentless effort behind the scenes that keeps our military strong, agile, and ready for anything. It's not just a depot—it's a testament to the ingenuity, precision, and resolve that define the United States military.

CAPABILITIES:

- Storage of Conventional Ammunition and DOD Elemental Mercury
- Demilitarization
- Ammunition Renovation
- Quality Assurance
- Range Scrap Processing
- High Desert, Aerial & Surface Water Training for Military Units
- Shipping & Receiving of Munitions via Rail or Truck
- Armament Retooling & Manufacturing Support Agreements

HISTORY:

The Naval Ammunition Depot Hawthorne was established in 1930. It was re-designated Hawthorne Army Ammunition Plant in 1977 when it transferred to Army control as part of the Single Manager for Conventional Ammunition. In 1980, it converted to a Government-Owned, Contractor-Operated installation. In 1994, it ended its production mission and became the Hawthorne Army Depot.

FACILITIES:

HWAD is housed on more than 147,000 acres. The depot has more than 400 administrative and storage buildings, more than 1,950 earth-covered magazines, more than 970 above ground magazines, more than 150 open storage locations (Y-Sites), six loading/shipping docks and three pads. HWAD also owns its own water rights, is self-sustaining and processes its own potable water through its state-of-the-art water treatment facility.
